

CAN WE FLY

ElectronicPressKit

„[...] rather, the four-headed band created four matchless and catchy songs that could be played easily on repeat on the radio and, above all, stay in the head for a long time.“ - [TVRE LOVE]

We are Can we Fly from Stuttgart, Germany - welcome to our EPK!
Here we have collected all the important information about us,
if there are any questions left, feel free to drop an [E-MAIL].
All important downloads and other links can be found [HERE].

With *TORN APART* we are showing ourselves in an entirely new light. Following the principle of "do it yourself", we were able to lose ourselves in our own world and to write the most honest song in our band career - without the influence of any producer.

The clearly dirtier sound and the intimate lyrics grant a deep insight in our environment and the emotions that accompany us in our daily lives.

[TORN APART - SOUNDCLOUD]

In April 2020, our last single named *THINK TWICE*, produced by Pitchback, was released with a melancholic sound and a new style of songwriting.

The song can be classified musically somewhere between Basement, Neck Deep and Superheaven.

By this, we were able to achieve first streaming successes and permanently increased our number of listeners on various streaming platforms.

[THINK TWICE - SPOTIFY]

Our debut EP *THE LESS YOU NEED*, also produced by Pitchback, marked the first milestone for us and our creative work as musicians in August 2019.

For the first time we could develop our own style and received a deeper insight into songwriting and "studio magic".

[THE LESS YOU NEED - SPOTIFY]

In 2018, we released our first Single *ATTRACTED*. This was our first song produced by Pitchback Studios, with which we were able to take our first step into the professional music world.

[ATTRACTED - SPOTIFY]
